Acknowledgement marking

Below is an example from the Science Faculty

1. An enucleated egg cell is where the nucleus is sucked out of an egg cell. ✓
2. The baby would be a clone of Brad Pitt because the skin cell would have the 46 chromosomes. The egg doesn't carry chromosomes so as not to do with the egg donor. ✓✓
3. To make the baby grow we have to put the egg cell into the uterus so it can get nutrients and hormones so it will grow. ✓✓

At the simplest the checked stamp will appear to acknowledge that the work has been satisfactorily completed by the student. There may also be simple corrections, marking for literacy or simple comments/questions/targets. **The checked stamp in some cases will replace the tick. Outstanding practice will see errors more thoroughly checked in some pieces of work.**
